Guest Speakers

Barbra Jones, Vice President for Student Life, came in to the Student Senate to extend a warm welcome back to all senators. Vice President, Jones congratulated every one for a great start to the year, and thanked all for being well behaved both on and off campus.

Delmar Crim, Executive Director of Dining Services came into the Student Senate to discuss food service issues that had been brought up in previous meetings in response to Student Senate President, Ray Barber’s invitation. Many concerns and constructive criticisms were brought to the floor, making this one of our most successful forums of the semester thus far. Among the items discussed were:

- The internal temperature of the foods being served at the grill station in the Farrell Hall Commons needs to be better regulated according to students.
- Delmar discussed the possibility of added breakfast combinations in the Commons, with the addition of a bulk cereal and milk dispenser.
- In the past students were able to purchase four water bottles as a meal, this year however this is no longer an option, due to the fact that water is not sustained to a meal.
- MacDonald hall was the highlight of our discussion; due to all of the changes that the main campus dining facility has undergone in the past year.
  - Vegetarian options are limited at this dining facility; Delmar along with CADI will be bringing more options soon!
  - MacDonald Hall has drastically increased the amount of meals that they serve a day by about 600.
  - Higher quality foods are now being served at MacDonald Hall
- The hours of operation of the campus dining facilities were discussed, with the potential of extended hours depending on the September financial and trends report, that will be released in the next few days.
- Delmar informed the senate of his plans to add a sushi station at the Sanford Stop within the next three weeks.
- The lost meal factor was yet another trending topic throughout the forum.
  - SUNY Delhi has a 95% participation rate in which students utilize their meal plans. This data however was conceived last May when students were allowed to use a meal at the Campus Convince Store. This month’s upcoming data may
show some fluctuation, but the participation is still expected to be high.

- With the new snack allowance that has been put into effect at Campus Convince, students feel that they are not able to fully utilize their meal plan for the full $6.50 that it is worth. Delmar spoke on the fact that it costs a lot of money to keep the convenience store stocked due to the fact that CADI cannot buy in bulk to be able to reduce the prices. They are providing the service as a convenience, and foods that are sold there may be bought at Price-Chopper cheaper.
- Unused meal plans will be recycled in to the CADI financial model in order to provide foods, as well as CADI employee salaries. These finances are predicted and budgeted at the beginning of each year in order to provide the best available food services.
