

Supplemental Form

New York State/UUP Joint Labor – Management Committees

As you might realize, our grant requests far exceed our capacity to provide full funding for each person. Our team has decided to ask some additional questions to help us in the decision making process. If funding is limited, money will need to be divided between two or more people that are attending the same conference. Thank you very much for providing complete and concise answers to the questions below.

1. Year that you last had a grant funded through this source?
2. Number of faculty/staff and or students impacted by your participation in the activity?
3. The benefit to the campus that will result from your participation in this activity?
4. Other funding sources that you have approached for this activity?
5. How will this activity be funded if you do not receive a UUP grant?
